Sedgewick Youth Murders Sweetheart, Her Father, Shoots Brother; Suicides

Tragedy Epitaph Farm Homes of Two
Pioneer Families of the Sedgewick District.

Tragedy entered the homes of two pioneer Sedgewick families Saturday evening when Joseph Ward, 28, son of Mr. and Mrs. Matthew Ward, in a frenzy of rage, shot to death his former fiancée, Miss Helen Hiller; her father, Andrew Hiller; critically injured Ronald Hiller, 13 year old boy, then took his own life, falling to the bedside his victims, after taking poison.

Sitting around the dinner table, Mr. and Mrs. Hiller, their daughter, Helen, and son Ronald, were confronted shortly before 8 P. M. Saturday by Ward who had whipped himself into a rage that resembled insanity, due, it is alleged, to the fact that Mr. Hiller had refused permission for the marriage of his daughter and Ward.

Ordering them to the room to "sit on up" the demented man after his orders had been complied with, coldly pointed his .22 rifle at Mr. Hiller and shot him dead; turned the gun on the young boy and shot him through the shoulder. Then, with his former fiancée, Helen, screaming for aid, the man coolly informed her that "everything is all right, don't get excited," and when the girl vainly tried to shield her emotions and stopped screaming, turned the barrel of the small rifle in her direction and sent a single shot crashing through her brain.

Inform Neighbors.
When Ward had started shooting, Mrs. Hiller, who was seated near a bedroom, managed to slip through the door and out the front of the house. She ran to a neighboring home, the Wards, friends of the family for 20 years, and sobbed out her story, unfolding the tragedy that had engulfed two of the most highly respected families in the district.

Shortly after the dramatic appearance of Ward at the Hiller home, and while his victims were lying dead on the kitchen floor, he telephoned to

his sister-in-law, Mrs. Nelson Ward, who lives in Sedgewick.

"I have just disposed of the Hiller family," Mrs. Ward said her brother-in-law informed her, "and now I have something here which will finish everything." That was all.

Returning from the telephone to the kitchen where the father and daughter lay dead and where little Ronald Hiller was suffering from a severe shoulder wound, apparently thought dead by the killer, Ward calmly took his prepared dose of poison and was found lying dead among his victims, shortly after the shooting, by neighbors who had hurriedly been summoned by the frantic mother.

Helen Hiller was the teacher in the Wardville school. Joseph Ward had lived with his father and mother until two weeks ago when he went to live with his brother, Dr. Albert Ward, of Redcliff, Alberta. Ward had a farm of his own but was not living on it.

The young couple, it is claimed by friends, secretly became engaged two months ago. The father of the girl, Mr. Hiller, was informed of their plans two weeks ago. He refused permission for the match, so it is said, and thus the engagement was broken up.

The inquest was held at Sedgewick on Monday, by Dr. W. Barr Murray of Sedgewick, Constable J. C. Cottrell of the Alberta provincial police made the investigation of the circumstances surrounding the tragedy and had failed to reveal any threats having been made by Joseph Ward prior to the occurrence of the tragedy.

Young Ronald was taken to the Viking hospital soon after the shooting where an operation was performed to remove the bullet on Monday. While the lad is still in danger hopes are held out for his recovery. The missile from the rifle passed through the upper part of young Hiller's left lung and lodged near the spine. He is in care of the local doctors, Dr. Saunders and Dr. Little.

CHURCH NOTICES AND ACTIVITIES

Sabbath Day Finds the Community
Joining in Observance, Prayer,
and Church Attendance.

UNITED CHURCH NOTES
The services will be at Strawberry Plains, Roseberry and Town; the topic of the sermon will be "A Message for Thanksgiving Day." Everybody is cordially invited.

We are in a position definitely to announce that the Rev. W. J. Houston, B. A. of Wainwright, will be the special preacher for our Anniversary Services on November 23rd. We look forward to hearing him as he is widely known for his inspiring messages. Plan to worship with us on this occasion.

Arrangements are under consideration for holding Evangelistic Services early in December. The pastor, Rev. J. R. Geeson, will be away to hold such services in Edmonton after which, Revs. G. King and W. J. Huston will hold services here. We want all our friends to have these special meetings in mind and prepare to share in them.

ST THERESA CATHOLIC CHURCH
IRMA, ALBERTA

Service on the first Sunday of each month at 11 a.m.

**ELKS HALL HAD NARROW
ESCAPE FROM FIRE**

(From The Viking News)

Citizens had visions of seeing the splendid Elks Community Hall go up in smoke Tuesday afternoon. At five o'clock the alarm was given and the news soon spread that the Elks Hall was on fire. A Calgary Power Co. truck on the street hooked onto the chemical engines and hauled them to the scene of the fire where Fire Chief Jones was already on hand, together with other voluntary firefighters. Smoke issued from the centre of the north wall and the firemen hacked a hole in the roof and brought the chemicals into action. The smoldering timbers in the wall were soon extinguished and the hall saved, much to the relief of the large crowd that had gathered. The fire started from a hot pipe in the wall leading from one of the gas stoves that was being used to heat the hall. J. J. Leader, who was doing some carpenter work at the hall first noticed the smoke issuing from the side of the wall and gave the alarm. The damage to the building was about \$150.00 which was covered by insurance.

Here and There

(696)
We are quite satisfied with the showing of the British teams at the Empire Games just concluded at Hamilton, Ont. for we picked up quite a lot of honors, and if I may say so, made a very creditable showing. This was the statement of R. T. Draken in charge of the swimmers who hung up several new marks at the meeting. He thought the Games would be of incalculable value to the Empire as a whole, since they brought all parts of it together at one time and one place.

**MUNICIPAL DISTRICT OF
BATTLE RIVER No. 423**

Notice is hereby given that, under the provisions of The Tax Recovery Act, 1929, the Municipal District of Battle River No. 423 will offer for sale, by public auction, at the Municipal office at Irma, Alberta, on Thursday the 13th day of November, 1930, at 2 p.m., the following lands:

Section	Twp.	Range	Mer.
Frac. of N. E. 36	44	7	4
S. W. 4	45	7	4
S. Half of N. W. 4	45	7	4
N. W. 30	46	9	4
N. E. 34	46	9	4
S. E. 25	46	7	4
N. W. 25	46	7	4

The above lands will be offered for sale subject to a reserve bid, and reservations contained in the existing certificates of title. Terms: Cash, unless otherwise arranged. Redemption may be affected by the payment of the arrears of taxes and costs at any time prior to sale.

Dated at Irma, Alberta, this 4th day of September, 1930.

R. J. TATE, Sec. Treas.

The Ladies Aid are putting on their play "The Arrival of Kitty" on Friday, November 21st. This is going to be good. Remember the date and watch for further announcements.

WEEKLY REVIEW PROV. MARKETS

Markets as Revised by the Market
Examiner, of Calgary,
For This Paper.

BEEF—choice heavy steers \$1.75 @ \$5; choice light \$5 @ \$5.25; good \$4.50 @ \$5; medium \$4 @ \$4.25; and common \$3.50 @ \$4.

FEDERAL STOCKS—Trading in this market has been fair, with feeder steers making \$4 @ \$5; stock steers \$3.50 @ \$4.75; stock cows from \$3 @ \$3.75.

HOGS—Edmonton bacon hogs are at \$9.75 @ \$10.10; select \$10.25 @ \$10.60; butchers \$9.40 @ \$10.75, fed and watered.

"THE VAGABOND KING"

Never before has anything like it been seen on stage or screen. The romance of a famous soldier, poet, swordsmen, lover. Told in thrilling action. The glorious voice of Dennis King will hold you spellbound. And beautiful Jeanette MacDonald, queen of "The Love Parade," sings the hitting lyrics. A cast of favorites. A full-throated chorus of 500. Settings of lavish richness. Filmed in natural colors on backgrounds of stupendous beauty. It's the perfect production of the all-color, talking screen.

Kiefer's Theatre, Irma, Wednesday, November 12th. Adults 50c. 8.30 p.m. All Color.

In Flanders Fields

In Flanders fields, the poppies blow
Between the crosses row on row
That mark our places; and in the sky
The larks, still bravely singing, fly—
Scarce heard amid the guns below.
We are the dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie
In Flanders fields.

Take up our quarrel with the foe!
To you, from failing hands we throw
The torch. Be yours to lift it high!
If ye break faith with us who die
We shall not sleep, though poppies blow
In Flanders fields.
Lt.-Col. John McCrae
France 1917.

TWO MINUTES SILENCE ON ARMISTICE DAY

Ottawa, Nov. 4th—Canada will observe the customary two minutes of silence on the morning of Armistice Day, Tuesday, November 11th. The following statement in respect to it was issued from the office of the prime minister: "In accordance with arrangements for the observance of Armistice Day, sanctioned by His Majesty the King, the people of Canada are invited to mark the occasion by a two minutes' silence at 11:00 a.m. on Tuesday, November 11, 1930.

The Saturday evening dances are again being run every Saturday evening from 9 to 12 in Kiefer's Hall, Irma. Admission: Gents 55c, Ladies free.

At an executive meeting of the Red Deer Board of Trade the matter of raising funds to keep the roads open this winter was discussed. A number felt that the whole burden should not fall on the Red Deer people, and it was decided that the Roads Committee should meet the Municipal districts adjoining to see if they would co-operate with Red Deer in the work.—Red Deer Advocate.

Lougheed

Born to Mr. and Mrs. E. Lossness, on Saturday, November 1st, a daughter.

B. Heron has been confined to his bed for some time, with an attack of pleurisy.

A number of Lougheedites attended the Concert and Dance in the Hill Park school on Friday evening. The school was filled to capacity and although, very unfortunately, some of the children who were to take part in the program, were not present, the concert to say the least was very good. Good music was furnished by Ted and Bert Mahlon and C. Paul. Earl Paul of Strome spent Sunday at the home of his parents.

The local U.F.A. is expecting a carload of apples, and it is believed that some will arrive about the middle of November.

Miss Francis Reeves and Miss Erna Johnson arrived this week to spend Thanksgiving at their respective homes. They are attending the Camrose Normal school this term.

George Westra is visiting at the home of his parents. George is also a student at the Camrose normal.

Mr. and Mrs. R. A. Capri of Camrose accompanied by Mrs. B. Hahn and two children of Daysland, motored to Lougheed Sunday where they were the guests of Mr. and Mrs. C. Beckmar.

Ernest Drager spent Friday last in Camrose.

Born to Mr and Mrs. A. Snetheum, on Monday, October 20th, a son.

KEEPING THE ROADS OPEN THIS WINTER

At an executive meeting of the Red Deer Board of Trade the matter of raising funds to keep the roads open this winter was discussed. A number felt that the whole burden should not fall on the Red Deer people, and it was decided that the Roads Committee should meet the Municipal districts adjoining to see if they would co-operate with Red Deer in the work.—Red Deer Advocate.

Britain and a Wheat Preference

Whatever hopes may have been entertained by a considerable section of the Canadian people, our Western farmers in particular, that, as a result of the Imperial Economic Conference, the British Government would grant it preference to the wheat of the Dominions through the imposition of a Customs tariff on all foreign-grown wheat, have gone a glimmering with the definite announcement of Premier Ramsay MacDonald that the British Government will not take this action because it cannot be done.

The British Government is extremely anxious to help out the food producers of the Dominions. It is most desirous of promoting and developing Empire trade. It is willing to do everything it can, but it will not place a Customs tariff on the food of its own people because it cannot do so. As an alternative it is giving serious consideration to bulk purchasing of wheat by the Government with a view through such bulk purchasing to giving a preference to Empire-grown wheat.

Undoubtedly there will be regret and disappointment in this country over Britain's decision. It is to be hoped such feelings will not be allowed to develop into anything approaching bitterness or antagonism towards the Old Country. Canadians generally should strive to understand and appreciate the British position. They should realize the facts of the situation.

In Great Britain this is not a political issue in a partisan sense. Liberals, Conservatives and Labour are all of one mind that, whatever preferential policies may be evolved at this time, they cannot include taxation of food supplies. Mr. Baldwin, who is more favorably disposed towards adoption of a policy of tariffs than either Ramsay MacDonald or Lloyd George, nevertheless made it clear that he did not include tariffs on wheat and other food supplies and raw materials in his programme.

Here is the situation. Great Britain is a country small in area but with a large population. It raises only a small fraction of the food its people require. It is a highly industrialized country, yet the variety of its natural raw products for purposes of manufacturing industry is small and strictly limited. It occurs the world for food supplies and raw products in order that it may exist. In order to pay for such food supplies and raw materials it must sell its manufactured goods abroad. Taxing its food and raw materials would increase costs of production that it could not compete with other nations engaged in manufacturing but which likewise possess large food producing areas and needed raw materials, as, for example, United States, Canada, Germany.

Now consider Britain's trade position with two countries, Canada and Argentina, by way of illustrating the position of the Old Country. Both countries have large surpluses of wheat for export; both are anxious to sell in the British market. Britain has two main articles she is anxious to export in large quantities—manufactured goods of all kinds and coal. The Argentine lacks coal, and is prepared to purchase it from Britain in exchange for wheat. Canada, on the other hand, is rich in coal deposits and is averse to large importations of coal from Britain entering into competition with Canadian miners. The Argentine is not a large manufacturing nation, and is prepared to purchase extensively in Britain, selling her wheat and meat products in exchange. Canada, on the other hand, is a manufacturing as well as an agricultural country. Its production of manufactured goods per head of population is one of the highest in the world. Canada is capable of manufacturing not only all the steel, textiles, boots and shoes, paper, automobiles, and a multitude of other articles required by her own people, but enjoys a large export trade in manufactures of all kinds. Canada, therefore, taken as a whole, is not anxious to take manufactured goods from Britain in exchange for wheat, meats, and various raw materials.

Therefore, notwithstanding a sentimental desire to favor Canada as a sister nation of the Empire, Britain simply cannot afford to impose a tariff against the Argentine and jeopardize her profitable trade with, and her huge investments in, that country. As Premier Ramsay MacDonald has stated: "We cannot do it."

Nations are like individuals in many respects, but in none more emphatically than in this, that they will buy where they can buy the cheapest and where they can sell their own goods and products in payment for what they do buy. Sentiment may alter this to some extent, but it can never overcome it.

The Americans, North and South, are food-exporting countries, with wheat the big item; so, too, is Australia, New Zealand, India, and so has Russia been in the past and will be in the future. China and Japan need food, but the economic position of vast millions of their people is not such as to enable them to buy high priced wheat. The wheat exporting countries must, therefore, look to the United States as a national necessity to prevent the unemployment rife, burdened with enormous debt, no longer possesses the purchasing power to buy high priced imported food products. Her people are forced to raise more grain for themselves, or go without. Their Governments are making them do so as a national necessity to prevent the exportation of money abroad which the nations must retain at home.

In the circumstances, what is Britain to do? Further restrict the markets for her manufactured goods by imposing tariffs against those countries which are prepared to buy from her in exchange for the sale of food products and raw materials, thus intensifying her own unemployment problem and at the same time increasing the cost of food to her people and of needed raw materials for her industries?

The British Labour government says "It cannot be done," the British Liberal party says "It cannot be done," the British Conservative party, while favoring tariffs to "safeguard" Britain's industries, says in regard to food and raw materials "It cannot be done." It is, we repeat, not a political question in a party sense in Great Britain; it is an economic question.

And in Canada, whatever our sentiments, desires, interests, or political views and opinions may be, it is just and right that we should at least look at and appreciate the British point of view.

A Secondary Attraction

Boy Quite Sure King's Absence Would Not Disappoint His Parents

When the King was in Yorkshire no one occasion he promised to review a boys' brigade. At the last minute, however, His Majesty was forced to cancel the engagement, and a local notability was hastily substituted; but the managers of the affair thought it only right to notify ticket purchasers that Royalty would not be present. Presently a small boy, who was to take part in the parade, came along with a request for two tickets for his parents. He was told of the disappointment in store for them. "Oh," said the lad, "they'll not be disappointed! It's not the King that father and mother are coming to see—it's me!"

Wild Life Valuable

Canada realizes quite a revenue each year from its wild life. According to Dr. H. F. Lewis, of the Department of the Interior, this wild life has a capital valuation of one billion dollars and a yearly business turnover of about \$45,000,000. This valuation includes the fur harvest, game fish, and their influence on sales of sports goods.

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutrition of the child is assured and development in every way encouraged.

Dependable Canadian Eggs

Where eggs were anything but a dependable article of diet twelve or fifteen years ago, today Canadian eggs of the higher grades are looked upon as quite safe to offer anyone for breakfast and need not be broken before coming to the table. The result of grading is that production and consumption have more than doubled during the past ten years.

Douglas' Egyptian Liniment is unrivalled for speedy relief of muscular rheumatism, lame back, inflammation, burns and felons.

Western Canadian Crop

The Government estimate of the wheat crop of Western Canada is 362,000,000 bushels, whereas the total crop of all Canada last year was only 304,320,000 bushels.

Northern Indians Need Help

Federal Government To Take Steps To Relieve Distress

Hon. T. C. Murphy, Minister of Interior, is taking immediate steps to relieve distress among Indians who have neither money nor food to carry them through the winter. Discussing the conditions of these wards of the state, Mr. Murphy said that the Indians in the northern reserves, where agriculture is the main source of livelihood, are in fair shape for the winter months, and it is not expected that federal assistance will be needed.

On the northern reserves, where trapping is the only occupation, the Indians, in many cases, have had a bad year and are in urgent need of succor. The problem, he intimated, was not a purely unseasonal or extraordinary one. It is a matter of fact that the fur-bearing animals in these areas are rapidly disappearing as a result of operations of white trappers. The Indians on these northern reserves are unable to catch enough fur within the limits of the reservation to make a living, and they have been accustomed to trap over contiguous territory. These non-reserve areas belong to the provinces. The federal government has no control over them.

The Indian, said Mr. Murphy, is a fur farmer, and does not exterminate wild life. But the white trappers who have gone into these areas, under provincial licenses, have had no regard for the preservation of wild life and have seriously depleted the numbers of fur-bearing animals. For this reason, many of the northern tribes are in distress.

The Indian affairs branch of the interior department, under instruction from Mr. Murphy, is making a rapid survey of the situation and relief will be given at an early date.

ARE YOU USING UP YOUR NERVOUS ENERGY?

Do you feel tired? Are you troubled by nervous headaches, irritability and a lack of ambition? If so, it is probable you have been using up too much nervous energy—you have been going full steam ahead without feeding the nerves.

Nerves that have become weakened and shattered through over-work or worry need nourishment—the nourishment gained through rich, red blood. Good blood feeds the nerves and gives them greater vigour and vitality.

No other medicine has been so successful in treating nervous disorders as have Dr. Williams' Pink Pills. They build up the blood, and give new blood. That is why they are the ideal nerve tonic. They are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

More Cigarettes Used

Report Shows People in United States Consuming More

The people of the United States are smoking more and more cigarettes. Last year they consumed about 1,000 per man, woman and child, but the reports for the first eight months of this year show an excess over those of the same period for last year of 200,000,000. Benjamin D. Hill, chief of the tobacco division of the Department of Commerce, assumes that the increase will continue until the end of the year.

In times of business depression or periods of great stress, it has been the experience of the tobacco industry, that consumption of cigarettes increases.

Dread Of Asthma makes countless thousands miserable. Night after night the attacks return and even when brief respite is given the mind is still in torment from continual anticipation. Dr. J. D. Kellogg's Asthma Remedy changes all this. Relief comes, and at once, while future attacks are ward off, leaving the afflicted one in a state of peace and happiness he once believed he could never enjoy. Inexpensive and sold almost everywhere.

Facts About Canadian Airways

Regular airplane services in Canada are maintained over nearly 7,000 miles of modern airways, according to a recent survey of conditions in the Dominion. There are 22 flying clubs in Canada, 370 private pilots, 370 commercial pilots, 311 air engineers, 407 aircraft, and 71 airports.

Persian Balm quickly relieves chapping, windburn and all roughness caused by weather conditions. Keeps the skin soft and lovely. Completely absorbed by gentle rubbing. Never leaves undesirable stickiness. Stimulates the skin. Makes it smooth and flawless. Preserves and enhances natural beauty. Soothes, refreshes and invigorates. Makes hands soft, raw-looking white. Imparts that subtle charm so essential to true elegance.

The small boy who used to balk at the garden in the spring has grown up now to be a tired business man who can't walk more than twenty miles a day over the golf course.

Finishing Livestock For Market

Beef Organization In Lethbridge Area Expect a Successful Year

With the satisfactory results of the feeding efforts of the past, coupled with a lower priced cattle and a good supply of feed at reasonable prices, a lot more cattle will be put in prime condition for killing in the Lethbridge area this year than ever before, according to estimates of the Red Label beef organization, which expects to improve upon last year's successes.

Banish pain with Minard's Liniment.

Few states as yet have laws standardizing the weight of bread.

Four Doses Relieved Bad Attack of Cholera

Mr. W. J. Cooper, Maugham, Alta., writes:—"A year ago last spring I arrived in Canada with my family, and one of my boys, aged six, was suffering very much with cholera. When we arrived I had a few hours to wait, and told one of the attendants at the station about it, and he asked me if I had ever tried Dr. Fowler's Extinct of Wild Strawberry. I had never heard of it in England, so he told me I could get it in Winnipeg. I am pleased to say I had only to give the child four doses and he got well and was quite cheerful by the next morning."

So Many Home Uses!

YOU'LL FIND A hundred vital, saving uses for Para-Sani Heavy Waxed Paper in your home. Comes in handy, sanitary, knife-edged package. For less exacting uses: "Centre Pull" Waxed Tissue (flat sheets). At grocers, druggists, stationers.

Advancement Made In Canada For Providing Indian Population With High Standard of Education

(By Russell T. Ferrier, Superintendent of Indian Education.)

Great advancement has been made in Canada, particularly of late years, in providing our Indian population with a high standard of educational and vocational training. Through the aid of increased appropriations by Parliament during that time, the Department of Indian Affairs has been enabled to enlarge existing buildings and construct more modern and fire-proof schools whilst higher salaries and grants have attracted better qualified teachers and instructors.

There are now 78 residential schools and 272 day schools, making a total of 350 centres of Indian educational activity. The total number of pupils is now 35,745, the average attendance being 11,579, constituting an increase during the past ten years of 28 per cent. in enrolment, and 48 per cent. in attendance, ample evidence of the success of the work in preparing Indian children to become independent and self-supporting citizens of the Dominion.

The residential schools are conducted by the Anglican, Roman Catholic, Presbyterian, and United churches, and high tribute must be paid to the zeal and self-sacrifice of those engaged in the work. The Department has had the close co-operation of religious denominations in the education of the Indians, and this well-established policy has demonstrated beyond all question of doubt the effectiveness of the system.

The formal opening of the modern residential school at Brandon, Manitoba, on July 18, 1930, adds another unit to the fine system of Indian educational institutions throughout the Dominion. It will be administered by the United Church of Canada and will have as its principal the Reverend J. A. Doyle, D.D., who succeeds the veteran educationist the Reverend Thompson Ferrier.

This school, which replaces the residential school built on the same site in 1894, is one of the finest of its kind in Canada. Built of tapestry brick with trim of Manitoba limestone, and terrazzo floors, it is fire-proof throughout. Some idea of the accommodation afforded may be gleaned from the fact that it has a fine large assembly hall, four dormitories, four class-rooms, a large study room, recreation rooms for both girls and boys, sewing room, sun-parlor, hospital ward with nurses' quarters, also a laundry equipped with the most modern hygienic appliances.

Adjacent to the school are a number of first-class farm buildings, one of which, the cow-barn, is one of the finest in Manitoba. There are also four residences for the use of the principal and married members of the staff.

The institution has a landscape setting, which places it on a par with some of the finest schools and colleges of the older provinces.

This school draws its pupils from a wide radius, owing to the scattered location of the reserves. Residential schools are required because many of the Indians are engaged in occupations such as lumbering, fishing, freighting, and trapping, and are thus away from their homes; and even the farms of those engaged in agriculture are not in solid blocks, as in white settlements, but are strung out along rivers and lakes, thus making it impossible to provide day-school accommodation for the major portion of them.

The curriculum provides academic instruction equivalent to the second year in high school. In addition the girls are given a thorough training in domestic science, and the boys, a course in agriculture, together with elementary training in carpentry, blacksmithing and the operation of internal combustion engines, sufficient to enable them to apply it in a practical manner in modern farm life.

While every possible effort is made to impart a sound academic and industrial education, special attention is given to the health of the pupils. During the years spent in the residential schools medical treatment is provided, which, with a balanced diet and supervised recreation, assists in the building up of a robust constitution.

Under the care and tutelage of the Department of Indian Affairs the Prairie Indian has now become a successful agriculturist. The official reports for 1929 show that 65,104 acres, in the Prairie Provinces alone, were sown to grain, from which were garnered 65,104 bushels. In addition, 971 acres were planted to root crops from which 61,448 bushels were harvested; and 87,766 tons of hay and other fodder were produced.

Daylight and Twilight

Hours of Day and Night Nearly Equal At The Equator

In the tropics, near the equator, nearly equal hours of day and night obtain the year round. The extremely short twilight which comes to this locality is proverbial. Kipling's lines picture the dawn coming up like thunder; but generally speaking, in the temperate zones there is nearly an hour from the exact time of sun setting until it becomes totally dark. Twilight, the transition period between daylight and darkness, increases in length as one goes north or south of the equator. It has been stated that of 8,766 hours which make up a year, there are at the equator 4,407 hours daylight, 864 twilight and 3,495 night; while at the poles the proportion changes to 4,450 hours daylight, 2,403 twilight and 1,913 night.—Christian Science Monitor.

(By Annette)

LOTS OF STYLE AND CHIC FOR YOUNG

Look how attractively the fitted plaids are arranged? They are set on the bodice that joins the skirt in tricky pointed outline. It gives it distinction and individuality. The simple long-waisted bodice belies its waistline at normal. The sleeves show smart detail in slight fullness toward the wrist.

Plain blue rosy woolen is charming trim against the wine red crepe woolen with dark blue dots used for the original Paris model.

Style No. 915 is designed for girls of 8, 10, 12 and 14 years.

Wool jersey, covert cloth, feather-weight tweed, rayon crepe, linen, tweed printed cottons and wool challis prints are smartly appropriate.

Size 8 requires 1 1/2 yards 54-inch with 3/4 yard 35-inch contrasting.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

Egg Laying Contest

Eleventh Canadian Contest Is Concluded At Ottawa Experimental Farm

Championship of the 11th Canadian egg laying contest which has just concluded at the central experimental farm at Ottawa, goes to a pen of white leghorn hens entered by Richard Green, of Farrington Park, Preston, England. Second place honors went to Mrs. W. P. Thompson, of Birch Hills, Sask., with a pen of barred Plymouth Rocks, while third place was taken by a pen of Rhode Island Reds, entered by the University of British Columbia. The contest was held over a fifty-two week period.

The best laying individual bird in the contest was a Rhode Island Red "N.P.-226," entered by Dan Russell, New Westminster, B.C. It compiled a total score of 287.8 points for 249 eggs.

Second individual honors went to a barred Plymouth Rock "No. 262," scored by Pratt Experimental Farm, Morton, Pa., with a total score of 284.9 points for 243 eggs. Third place was taken by a white Leghorn, "No. 524," and owned by J. K. Dugan, Cobblehill, B.C., total score 283.7 points for 244 eggs.

Scores of the leading pens in the length of the contest: Richard Green, Farrington Park, England, pen No. 50, scored 2,176 points for 1,904 eggs; Mrs. W. J. Thompson, pen No. 18 (second), 2,174.6 points for 2,228 eggs; University of B.C., pen No. 33, 2,166.3 points for 2,174 eggs.

The fact that the English pen won the championship although the second and third honor birds had a better total laying performance than the winners, is explained by the rules of the contest under which the size and weight of the eggs figure in the point scoring.

Out of a total of 800 scoring entries in the 80 pens which made up the contest, only 142 qualified for official registration during the year.

Pure Bred Stock

Four Ayrshire Heifer Calves Go To Experimental Station At Windermere, B.C.

Four Ayrshire heifer calves which were purchased by Capt. Dun Waters of Fintry, B.C., at the recent draft sale of Ayrshires at the University of British Columbia, have been offered to and accepted by Dr. E. S. Archibald, Director of Experimental Farms on behalf of the Dominion Experimental Station at Windermere, B.C. These heifers—Auchincloss, Minerva's Pearl, Munera's Valentine's Polly, Netherhall Lovely Mendella and Nethercraig Majestic Beauty were all imported in dam and are of exceptionally good breeding.

Great Ayrshire Cow

High Record Of Milk Production From Cow At Indian Head Experimental Farm

The R.O.P. report of Tullochgorum Dorothy, (52210), owned by the Experimental Farms at Indian Head, shows this Ayrshire to have given 15,331 pounds of milk, 600 pounds of fat in 305 days on three milkings a day in the mature class, honor roll division. This is the highest record so far this year in this class and is Dorothy's third consecutive record.

Have Exclusive Language

Obliged to find most of their companionship among their own sex, the women of India have developed a free masonry of sex, so that in certain parts of India there even exists a woman's language which men cannot understand.

Canadian Hay Crop

Ample Supply In Sight In Most Of The Provinces

The seed branch of the Dominion Department of Agriculture reports the total hay yield in Canada for this year is likely to be slightly less than in 1929. They find, however, that an ample supply is in sight in most of the provinces and a substantial exportable surplus is promised. The quality of most of the 1930 crop is well above average, particularly with respect to color.

The hay yield in the Maritime Provinces is expected to exceed last year with a large surplus for export, particularly of timothy and dyke hay, Prince Edward Island cut a good crop and the combined surplus of the Maritime Provinces is placed at 35,000 tons.

The Quebec hay acreage was about the same as in 1929, but the yield per acre was greater. There will be about 200,000 tons available for commercial use.

The hay crop in eastern and northern Ontario shows a big gain with about 75,000 tons over local requirements. Western Ontario had only a 75 per cent. crop and the commercial surplus of alfalfa will be limited to about 3,600 tons.

In western Canada, Manitoba and northwestern Ontario put up 30 per cent. more hay than last year, sufficient to take care of the home demand. The Pas district has large quantities of slough hay, which will be available to the drought areas of Saskatchewan. In Saskatchewan the hay situation is even more difficult than it was last year, while in Alberta timothy and alfalfa were a good crop, with wild hay below average. Alberta will have about 3,700 cars of hay for sale. The British Columbia crop is variable but estimated to be sufficient to take care of most of the needs of the province.

Detailed information with respect to the hay crop of Canada may be obtained by writing to the Markets Division of the Seed Branch, Department of Agriculture, Ottawa.

Apples and Potatoes

Revised Estimate Of Apple and Potato Production Throughout Canada

The final revised estimate on apple and potato production throughout Canada, prepared by the markets extension division of the Fruit Branch of the Dominion Department of Agriculture, places the apple crop this year at a total of 3,035,000 bushels. This is well up to the five-year average while nearly 750,000 barrels below last year's crop. British Columbia shows an estimated increase in production of about 450,000 barrels, while Nova Scotia's crop is about 600,000 barrels, below last year.

Canada's potato crop is estimated at 47,262,400 cwt., an increase of approximately 7,300,000 cwt., or ten per cent. over last year.

The onion crop in British Columbia is reported to have matured very well but to be considerably lacking in size. The estimated yield is placed at 10,366 tons. The Ontario onion crop estimated at 18,890 tons, has matured under favorable conditions and is 20.5 per cent greater than in 1929.

Confirmed Criminals

Dr. Sheldon Gleuck, assistant professor of criminology at Harvard University, has reported that results of a recent survey tend to show four-fifths of the prisoners at the Massachusetts state reformatory fall back into crime at least once within five years of their parole. The report covered the records of 500 prisoners, released between 1911 and 1922.

Says Security Of Our Future Depends On The Courage Of Farmers Of Western Canada

Screening Feeds Officially Graded

Livestock Prices Should Make Them Profitable For The Farmer

Canadian farmers will be particularly interested in the following statement issued by the seed branch of the Dominion Department of Agriculture:

Screenings shipped for feed from terminal elevators are now being sold under grade certificates, under the new grade standards and designations provided by the Canada Grain Act or regulations thereunder.

Standard reclassified screenings, consisting essentially of broken wheat and wild buckwheat, are now designated "No. 1 Feed Screenings."

A second quality of these screenings which, in addition to the wheat and wild buckwheat, may carry appreciable quantities of wild oats and coarse grains, is designated "No. 2 Feed Screenings." This grade also allows a slightly greater tolerance of ball mustard than No. 1 grade, and would be specially serviceable for feeding sheep.

The product formerly known as "Oat Scalpings" and consisting mainly of wild oats, but with small percentages of domestic oats and barley, is now designated "Mixed Feed Oats."

Terminal elevators, needed for the storage of wheat, are carrying substantial quantities of these grain by-products which are, in consequence, being offered at much lower than the usual prices. Mixtures of barley and wild oats, finely ground, are available at 80 cents per cwt. sacks included, delivered at Montreal, Sorel and Quebec.

Any danger from the presence of weed seeds in these nutritious grain by-products would be corrected reasonably well by fine grinding with high power hammer grinders, and this fact, together with the low prices at which they are now available should render them profitable to the Canadian feeder, and at the present low prices for animal products.

Soil Improvement Train

Campaign In Quebec For Securing Greater Yields

A soil improvement train has just completed its three weeks' itinerary through southeastern Quebec, having started at Coaticook on September 15th and finished at Vercheres on October 4th.

The train was organized by the Quebec Department of Agriculture in co-operation with the Agricultural Colleges in the province, the seed branch of the Dominion Department of Agriculture, and the C.N.R., and was part of a campaign now being waged in Quebec for securing greater yields from a more intelligent and more general use of agricultural lime and commercial fertilizers.

Of the four coaches which made up the train, the first was used as a laboratory where samples of soil, brought in by visiting farmers, were tested for acidity, and recommendations given as to the approximate quantities of lime required according to the results of the acidity tests.

The second car was devoted to demonstrating the advantages from the proper use of agricultural lime; the third, those of commercial fertilizers, while the fourth was the lecture car in which lectures were given by the officials in charge on the use of agricultural lime and commercial fertilizers.

Upwards of 10,000 farmers visited the train in the course of its tour and about 5,000 soil samples were tested.

Glasgow Port Opened For Cattle Shipments

Rate Is \$15.00 Per Head From Canadian Atlantic Ports

Two important developments in the cattle export trade occurred when Hon. Robert Weir, Minister of Agriculture, announced that the steamship companies had agreed to open a service from Canadian Atlantic ports to Glasgow at a rate of \$15 per head. Heretofore, the cattle boats have gone to Liverpool. Mr. Weir has got the shipping companies to fall into line on ocean rates, at a level of \$15 per head. One of them has been charging \$20.

He regards the opening of the Glasgow port, centre of a large feeding area, as of importance. The Scottish cattle men, he said recently, are more interested in buying feeder stock, while the Liverpool trade desires fat cattle ready for killing.

A total of 18,029,973 telegrams was transmitted and received in Canada in 1929, an increase of 1,172,753 over 1928. There are 360,583 miles of telegraph lines in Canada.

Urging the people of eastern Canada to lend their moral support to the citizens of western Canada during their present trying period, E. E. Ramsay, chief commissioner of the Canadian Board of Grain Commissioners, addressing the Canadian club at Toronto, recently, declared that upon the courage of western farmers to keep to their land and maintain production lies security in the future.

Farmers must be encouraged to continue to produce until consumption has grown to absorb production. "Western Canada today is well up against it," Mr. Ramsay said. "There is no doubt about it. They have had two unprofitable crops on their hands, the first due to short production and the second to very low prices."

Continuing, the speaker declared the western provinces were in need of help, but do not need a "dole" help," he said, "for the west will always pay its debts as it has done in the past. But it needs the moral help of every man and woman in Canada to tide over its present difficulties. The thing of prime importance is to keep the western farmer in full production until consumption increases to take care of it."

"I have noticed that those who have expressed views on the market are wrong five minutes after they start," Mr. Ramsay said. "I don't think anyone knows anything about it. We are doing a good export business in Canada, if that keeps up the heavy carryover from last year may be diminished."

"Last year it was the fashion to blame conditions on the wheat pool. This year it is Russia. I don't think either has too much to do with it. It was just one of those periods of liquidation that happened from time to time."

Easterners were inclined to underestimate the ability of western farmers, he contended.

"There are a great many statements flying around in the press and on the streets which seem, I believe, to credit the western farmer with little common sense or gumption," he said. "My own experience is that the western farmer is a very fine type of business man."

"He is not going to be stampeded and he is not going to abandon his farm. I have always thought that the biggest difficulty the western farmer has is an assurance of the stability of his tenure on the land; in other words that his work was going towards the building up of his home."

"He doesn't want to have to move. There is a saying in the west that two moves on a farm is as bad as a fire, that money will be lost."

"It is a fact that he holds in his own power a great deal of ability to lower the cost of production. He can live off the land and he will do that before he will leave his farm."

Mechanized farming to introduce the large-scale operation in western Canada would mean national disaster, in Mr. Ramsay's opinion.

"I think that there is a real place on the farm for some mechanical assistance," he said, "but I think it would be a national calamity if the farm home gave way to mechanized farming."

"We need that population on the prairies. The big difficulty this country must face is to keep those people on the land until conditions remedy themselves."

Fickle Lovers

Thousands of hearts were broken in England since January 1, 1930, the office marriage certificates reveals. Figures from this office show that more than 2,300 licenses were returned by fickle brides and bridegrooms since that date.

A working man's family spends on the average, \$140 a year on doctor's bills and other medical expenses, according to a statement from the U.S. Department of Labor.

"Darling, listen to my pleas."

"But you are too old for me."

"Will you think over it until tomorrow."

"But I shall be older tomorrow."

Munka, Vienna.

Open New C.P.R. Offices

Handsome new offices of the Canadian Pacific Railway have just been opened at Ouellette Avenue, Windsor, Ont. Above lay-out shows the location of these offices, the opening of which was made the occasion of a large gathering of C.P.R. men from every department of the company's activities as well as of representative citizens from Windsor. Inset shows His Honor Cecil E. Jackson, Mayor of Windsor, who cut the ribbon that served to tie the front entrance of the building.

"What was the name of the last station we passed, mummy?"

"I don't know."

"What a pity. Baby fell out there."—Buen Humor, Madrid.

VIKING

(By H. B. C.)

On Tuesday night the Tennis Club presented one of the best amateur plays that Viking has ever seen. From start to finish there was action, carrying the large audience from one laugh to another. At times the screams of delight made the Community Hall echo with hilarity.

The play is well written with the plot unfolding nicely, and yet with such surprises as to cause the interest to quicken. From start to finish it moves rapidly, and holds the attention until the last curtain falls.

Patrick Casey a retired contractor, becomes disgusted with the ultra modern life of his better-half, Mary Anne, and his son and daughter, asserts his independence assisted by detective Jim, son of an old friend, and George Drake, Kathleen's "steady." How he frustrates the diamond smugglers in whose coils his son is entangled is cleverly worked out and he also proves the "O'Malleys are good enough for the Caseys."

The cast was well chosen, the ability of the various participants making their respective characters very real. And once again it has been demonstrated that Viking has extraordinary talent. Our genial mayor, H. G. Thunell, represented Patrick Casey, and portrayed the Irishman in delightful manner, with all his wit and humor and good sense. Mrs. H. B. Collier, as Mary Anne, gave evidence of ample experience in stage performances, with a very "up-stage" manner until the end of play when she becomes her maternal self. Jack McAtthey as the son Michael, was the real sheik that the part called for. Mary Slavik as the daughter with the "society bug" gave a very convincing performance. Maggie, the daughter "just like father" was taken by Agnes Wick, and was a most sympathetic representation.

The villains in the play, always the most difficult roles were made extremely real by Mrs. Thunell as Madame Baisaki, a bolshevik, and Dave Metcalf as Humpy the janitor. As is frequently the case the maid here most important part and "Dick" Harris carried it off with her usual adaptability and poise. The love scenes between George Drake (H.B. Rogers) and Kathleen, and Michael and the maid, would have turned movie artists green with envy. Ken Hilliker as detective Jim proved himself a real sleuth and when the plot threatened to become too serious Monsieur Armand Francois Boni de Lovier provided humorous situations by his realistic performance as the French modiste, "the dress-maker" acted by Fred Otto.

The play was directed by Rev. J. W. Bainbridge and much of the success must be credited to him.

The costumes were very pretty and considerable surprise was manifested that such lovely creations could be secured from the wardrobes of the ladies of Viking.

The Viking Serenaders orchestra supplied snappy music during the intermissions and thus made every minute of the three hours enjoyable.

So many complimentary remarks have been heard that there is talk of a "return engagement" to enable the busy thrashers to hear this good play.

The ladies of the Tennis Club served a very acceptable lunch to the entertainers after the evening performance.

The local Elks have taken over the management of the moving picture theatre and will hold regular performances as usual, every Friday and Saturday evening. H. P. Stock will attend to the business end of conducting the shows, while M. E. Farnham has been retained as operator. The Elks will endeavor to show high class films, and ask the support of the public in keeping the movies in town. For this week the picture will be "Wild Geese" a picture that comes highly recommended, together with an hilarious comedy. In patronizing the picture shows you are also assisting in the work of the Elks in keeping open one of the finest halls in northern Alberta. Go to the movies as often as you can.

S. H. Brooke, north of town, received the sad news this week that his brother, Percy William Brooke, had been killed on the Isle of Man by an escaped lunatic, on October 13. Graphic details of the murder and the capture of the killer are contained in the paper received by Mr. Brooke from the Isle of Man. The slain man was very popular among the inhabitants and his death has cast a gloom over the district in which he farmed. He was 62 years of age. He had expected to pay a visit to his brother here next year.

J. L. Clinton received the sad news this week that his mother had died at Spokane, Washington. She was 77 years of age and had been ailing for some time. The community joins in expressing sympathy with Mr. Clinton in his great loss.

VIKING.

A distinguished visitor to the Viking district during the past couple of weeks was His Lordship Bishop Breynton, Vicar-Apostolic of the MacKenzie. The untimely freeze-up of the northern lakes impeded the Bishop's return to his diocese until sufficient snow covers the lake surface to enable the aeroplanes to make safe landings. Being thus delayed he took the opportunity to visit his friends in the Viking district. He was the guest of Fr. O'Neill at St. Mary's Rectory on several occasions and also had a pleasant visit with Constable and Mrs. Miller. His affable disposition, coupled with his long years and numerous experiences in the north, makes him a pleasant and entertaining conversationalist. He left during the next week for Castor, where he will spend a few days, before returning to Edmonton to make preparation for his trip to the land of snow and ice.

Hallowe'en passed off more orderly than usually is the case. The small boys and girls confined themselves to calling at the residences and receiving treats, and showed that they had no desire to perform the usual hoodlum acts connected with Hallowe'en, such as some of the older boys and young men indulged in. If someone could successfully point out the senselessness of some of the acts performed on Hallowe'en and put a stop to it, the world would rise up and call him blessed. Perhaps some organized effort to make a good time for the young people on that night, would eliminate much of the disagreeable acts now connected with the evening of October 31st.

All the threshing rigs are working in the district and it looks like everybody will get threshed after all. Grain is pouring into the elevators by the truck load.

Don't forget there's a dance after the chauntiqua program on Tuesday November 11th. Everybody welcome. Elks hall, good music.

Dr. Purvis, of New Westminster, B. C. is a guest at the home of his brother, C. G. Purvis. Dr. Purvis will be remembered as having practiced his profession here for a short time in 1919 before going to the coast.

The crews of the Calgary Power Co. have returned to town and are busy with the construction of the line. The cable that will hold the wires for the street lighting system is being laid. It is probable that the "juice" will be turned on within a week.

HEADACHES

Ended by Kruschen

"I was a martyr to headaches, with frequent attacks of dizziness affecting my vision. My occupation is a very sedentary one—a printer's reader. I gave Kruschen Salts a good trial, and from then onwards I seemed quite another person. The headaches disappeared and the dizziness, and the most wonderful thing to me is that I have gone back to weaker glasses, a lens which I had discarded some years ago as not being strong enough. I also suffered from bad circulation during the early mornings of winter. Now at 58 I can enjoy cold baths all the year round, enjoy and am eager for my food, and an what I consider very fit—the sort of fitness that makes living a joy."—(G. E.)

Headaches can nearly always be traced to a disordered stomach or to partial constipation. Many people, and many indoor workers suffer from without ever suspecting it. Kruschen Salts go right down to the root of the trouble and remove the cause by gently persuading the organs of elimination to function exactly as Nature intended they should.

WORLD HAPPENINGS

BRIEFLY TOLD

France's newest submarine, the *Prométhée*, a long-distance cruiser of 1,500 tons, has been launched successfully. The ship is 295 feet long.

A flight from Montreal to Paris in the spring of 1931 is the hope of Rudolph Page, French-Canadian private and commercial pilot of Montreal.

The end of the present season will find the air operations department of the Ontario forestry branch with a new record of over 14,000 hours flown during the year.

Edmund A. Gullion, 17-year-old American youth, won the fifth International Oratorical contest held at Washington. Paul Leduc, 17-year-old French-Canadian, was second. Youthful of eight nations competed.

General V. J. Karpoff, one time commander of the Chinese military forces at Tientsin, under the late Marshal Chang Tso-Lin, has abandoned his military career to become a monk.

W. B. Lumbe, the British Government's assistant deputy trade commissioner in New Zealand, has been transferred to Canada, and will take up his duties in Winnipeg in December.

Empire delegates to the Imperial conference saw 37 different types of British aircraft in action at Croydon Airport, England. The minister Ramsay MacDonald witnessed the air performance, executed in honor of the overseas visitors.

Question of more severe penalties for the adulteration of butter is under the consideration of Hon. Robert Weir, Minister of Agriculture. A request for such action was recently made to Major Weir by the Montreal Produce Association.

No decision has been reached to conduct an investigation into the cost of constructing the new Montreal bridge, states Sir George Perley, acting prime minister. Sir George was asked last respect to rumors that the government proposed to institute such an inquiry.

Keeping Down Weeds

Good Work Carried On In Alberta This Year In Connection With Weed Eradication

Good work was done in Alberta this year in the keeping of soil free from weeds. It was reported at a meeting of the advisory weed board at the Parliament Buildings at Edmonton. The activities of sixteen supervisors were reviewed under the direction of E. L. Gray, field crops commissioner. Recommendations from the board will go to the Department of Agriculture as to next year's work, for which some important undertakings will be suggested.

Largest All-Canadian Lake Great Bear Lake in the Mackenzie district of the North West Territories, Canada, is generally admitted to be the largest body of the lakes wholly within Canadian territory. Its area is approximately 12,000 square miles.

First Atlantic Steam Crossing Built in Quebec in 1833 and Canadian owned, the "Royal William" was the first vessel to cross the Atlantic under steam power alone.

Reverse Only Temporary

Britain Not Likely To Abandon Imperial Air Program

In its stunning effect upon the public consciousness, the disaster to the R-101 may be likened to that which overtook the "Titanic" before the war. But the loss of the largest, most and fastest trans-Atlantic liner that had been built up to that time has not prevented the British from continuing to produce great ocean-going vessels. In fact, liners now on the stocks or projected exceed in size, speed and superb furnishings anything ever before contemplated. The terrible mishap to the R-101 will doubtless delay Britain's dream of an all-embracing Empire air service, if only for the reason that so many of her air experts have been lost. But it may be taken for granted that the British will not abandon the Imperial air programme of which we heard so much on the recent visit of the R-100 to this country. All down through her history, the Mother Country has displayed a genius for converting failure into success—for turning temporary reverses into lasting triumphs.—Toronto Mail and Empire.

(By Annette)

FOR THE FIRST BRISK FALL DAYS

Smart women have adopted the sheer woollen frocks for street and spectator sports.

The model illustrated expresses new chic in its dignified tailored lines. It achieves smart individuality through its buttoned vest and wrapped arrangement of the bodice.

The sleeves are suggestive of leg-o-mutton shaping.

It's very slender through the hips. Style No. 522 is designed in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 inches bust.

It's easily made! You'll find the new woollens of lightweight texture quite as easy to handle as the silk crepes.

It's effectively carried out in woollen crepe in favorite dark green tones. The vest is of plain green in the darkest tone of the pattern.

Tweed in knitted effect in red is swaggar. Make the vest of matching red shade woven with black diagonal stripes. Match the stripes at the center, and trim with black buttons.

Black canton crepe with white, brown wool jersey of knitted weave with beige, and tweed printed silk in wine shade with plain crepe of blending shade are ideally suited to this model.

Size 36 requires 2 1/2 yards 54-inch with 1/2 yard 30-inch for collar and cuffs, 1 yard 45-inch for vest. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully with name and full address, the number of the pattern and the size you want.

Tenth Anniversary Of Radio Broadcasting

Although Opportunities Were Restricted Development Has Been Rapid

The tenth anniversary of radio broadcasting which gave the industry its greatest impetus, was celebrated a few weeks ago. The first program went on the air from a Pittsburgh station in 1920, and some weeks later this same station introduced radio to politics by broadcasting returns of the Harding-Cox election. Crystal-detector sets were then the last word in reception, and it was necessary for members of the family to take turns at wearing the earphones. Restricted as were its opportunities, however, broadcasting developed so rapidly that within a few years the air was overcrowded and the Government was seeking some form of regulation.

The substitution of electrified vacuum-tube sets for those with crystal detectors and the replacement of earphones with loud speakers, together with other improvements, greatly increased the range and quality of reception. Television today is scarcely more of a novelty than broadcasting was in 1920.

These developments have created great industries.

Recipes For This Week

(By Betty Barclay)

WAFFLES

- 2 cups flour.
 - 4 teaspoons baking powder.
 - 1 teaspoon salt.
 - 1 1/2 cups milk.
 - 2 eggs.
 - 6 tablespoons butter.
- Beat yolks well; add milk and sifted dry ingredients quickly. Add melted butter. Fold in stiffly beaten egg whites last. This recipe makes six large waffles.

Honey Syrup

- 1/2 cup melted butter.
 - 2 cups honey.
- Heat honey and add melted butter.

SCALLOPED SWEET POTATOES AND APPLES

- 2 cups cold boiled sweet potatoes cut in 1/2 inch slices.
- 1/2 cup sugar.
- 1 1/2 cups thinly sliced sour apples.
- 4 tablespoons butter.

Salt. Put one-half the potatoes in buttered baking dish, cover with one-half the apples, sprinkle with one-half the sugar, dot over with one-half the butter and sprinkle with one-half the salt. Repeat. Bake in a moderate oven one hour.

First Compound Steam Engine

The first compound steam engine was invented in Canada by Benjamin Tibbits, who used it in the steamship "Reindeer" which he designed and built at St. John, N.B. This invention, by reducing the amount of fuel required, revolutionized marine transportation.

Canada's Wooden Ships

The building of wooden ships in Canada reached its maximum development in 1905, although in 1952 Quebec alone had 25 shipyards, and eight floating docks, giving employment to 3,500 workers.

At 20 years of age we know; at 30 we think we know; at 40 we are uncertain, and at 50 we give it up.

WHY SUFFER FROM YOUR LIVER?

Why be handicapped with unsightly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver.

Headache, Dizziness and Blisters surely follow. You must stimulate your lazy liver, start the bile flowing with Carter's Little Liver Pills. They also act as a mild laxative, purely vegetable, free from calomel and poisonous drugs, small, easy to swallow and not habit forming. They are not a purgative that cramps or pains, unpleasant after effect following, on the contrary a good tonic. All Druggists 25c and 75c red pkg.

Brilliant Triumph Scored By Kingsford-Smith

Australian Has Proved Himself One Of World's Greatest Aviators

If the British Empire suffered any loss in aviation prestige through the recent disaster that befell Great Britain's great airship the R-101, that prestige would seem to be restored by two outstanding later achievements. These were the flight of a Canadian aviator, Captain, Errol Boyd, from Newfoundland to England, and now the brilliant triumph of Wing-Commander Kingsford-Smith of Australia in flying from England to his own country with such speed as to clip more than five days from the previous record. Kingsford-Smith completed this 10,000-mile flight in the remarkable time of nine days, 23 1/2 hours as against the 15 1/2 days it took Bert Hinkler, the previous record-holder, to make his trip in 1928. Kingsford-Smith's time is the more impressive in view of his impaired physical condition of late. Shortly before his flight he had undergone two operations and was experiencing other illnesses, and had advised by his doctor not to make the flight.

The view is expressed that this Australian aviator's achievements are of a more impressive nature even than those of Col. Lindbergh, the American, whose great solo flight from New York to Paris and whose achievements in the air at home and in neighboring countries since that time have stamped him as perhaps the world's premier peace-time ace. Certainly Kingsford-Smith's achievements, in crossing the Pacific, then the Atlantic, and now in making this 10,000-mile hop across the vast sea and terrain of the southern world, warrant his being regarded as one of the greatest aviators the world has known. He has distinctly scored in behalf of his country and the British community of nations as a whole. It has written high the name of the British Empire upon the scroll of daring and achievement in the skies.—Regina (Evening) Leader-Post.

Ancient Barley

Specimen Of Three Thousand Year Old Barley Received By Manitoba Agriculture College

The Manitoba Agriculture College has just received a specimen of three thousand year old barley from Palestine. This was found by the famous archaeologist, Sir Flinders Petrie, and has reached the college through the courtesy of the director of the Royal Ontario Museum of Archaeology, at Toronto, Dr. C. T. Curran. The barley was discovered in grain pits at Tell-Fara, Palestine, which date back to the time of King Solomon. The barley has been the color and consistency of charcoal, but the shape of the seeds or broken pieces of seeds shows the characteristic form of barley very clearly.

Among the New Fruits

Port Arthur Man Grows Orange Peach and Banana Melon

Further samples of Port Arthur banana belt products have been shown by A. Swanson, who grew penut which attracted so much attention recently. Mr. Swanson displayed a new kind of melon, described as the banana melon. In shape it is between a banana and a cucumber and in texture and taste like a banana. The other product of his backyard garden was an orange peach. It appears much like a hybrid of the orange and peach. In taste it is more like a grapefruit. Both the banana melon and the orange peach grow on vines.

Alberta Sugar Factory

The refinery of the Canadian Sugar Factories Limited at Raymond, Alberta, will likely be kept working up to the end of January, the crop of beets having been heavy this year—in the neighborhood of 11,000 tons. Slicing of beets began September 15th last.

Gen Will Be Priceless

A ruby said to be a wonderful gem weighing about 100 carats has been found in Mogok, upper Burma. Great secrecy is being maintained about the discovery but it is said the ruby is flawless and of excellent color. If this is the case it will rank among the world's most priceless gems.

Alberta Oil Development

An English group, Anglo-Western Oils, has entered the Southern Alberta oil development and will start by drilling two wells in the Milk River field shortly.

When a vehicle zipped by in the old days, it meant that some horse was feeling his oats—not that some ass was feeling his rye.

Georgetown, British Guiana, has installed the only semi-automatic waterworks in the world.

WHEN FOOD SOURS...

Sweeten the Stomach instantly

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless liquid; pleasant, efficient and harmless. But it kills excess acids. It has remained the standard with physicians for more than 50 years.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get genuine Phillips' Milk of Magnesia prescribed by physicians for over fifty years in correcting excess acids. 50c bottles—any drugstore. The genuine is always a liquid—never made in tablet form. Look for the name Phillips on wrapper and bottle.

Is Christian Convert

President Chiang Kai Shek Of China Embraces Christianity

President Chiang Kai Shek of China has been converted to Christianity.

Appearing unexpectedly in Shanghai, the generalissimo went to the home of his mother-in-law, Madame K. T. Soong, and was baptized into the Christian Faith by sprinkling, according to the rites of the Methodist Episcopal Church, South.

The ceremony was performed by a Chinese pastor, Rev. Z. T. Kung, a graduate of the Southern Methodist Episcopal Mission University at Soochow. The mission's headquarters is at Nashville, Tenn. Chiang explained his action in these words:

"I feel the need of a God such as Jesus Christ."

The president's conversion was a distinct surprise to Shanghai. Only a few intimate, mostly relatives, attended the ceremonies after the chief executive came from the capital of Nanking.

Christian circles heralded the baptism with great joy and said it struck a blow at Communism. Communists have been directing attacks at foreigners recently and particularly at Christianity as being representative of foreignism.

Pastor Kuang said he did not expect Chiang to take an active part in church affairs, as he is too busy with government duties, but "He and the spirit of Jesus Christ within him will go marching on."

The president's conversion is believed due to influence of Christian relatives. His wife, the former Mollie Soong, and Madame Soong, her mother, have been devout Christians for years, as have other members of the Soong family.

The late Dr. Sun Yat-Sen was a Christian. Another famous general, who once espoused Christianity was Feng Yuxiang. He was known as "the Christian general" and had his entire army baptized. Later he is said to have renounced his faith under the influence of Bolshevism.

An instance of Chiang Kai Shek's pre-conversion partially to Christianity was seen in 1925, when a dentist at the Yale-in-China Mission at Changsha extracted an aching tooth for the general. He was so grateful that when his armies later surged through the country he ordered the Yale building spared.

Another associate of Chiang's who is an outstanding Christian is H. H. Kung, Minister of Commerce and Labor. He is a descendant of the Confucius.

Before conversion Chiang had no formal religion.

Raising Status Of Agriculture

Saskatoon Promises To Develop As Chief Stock Market Of Saskatchewan

"The scientific feeding and fattening of livestock and approved methods of crop rotation, are producing a higher standard of cattle and grain in Central Saskatchewan," says "The Hub."

"The Hub," "Favored by location, transportation facilities and improved highways, Saskatoon has become a leading livestock market. The Union Stockyards are handling cattle, horses, sheep and hogs on a large scale—to such an extent, in fact, that Saskatoon promises to develop as the chief stock market of the province."

Didn't Want That Kind Agent (to actor): Then we'll consider that settled.

Actor: But—what about the contract?

Agent: Oh, that's all right. A verbal contract'll do.

Actor: Liddle, listen. The last time I had a verbal contract I drew a verbal salary!

"But Madam, you cannot marry again. If you do, your husband has clearly specified in his will that his fortune will go to his brother."

"Yes, I know. It's the brother that I'm marrying."

ENO'S FRUIT SALT

The Safest, Surest Way To Health

The daily dash of ENO in a glass of water every morning is the safest, surest way to inner cleanliness. And to be inwardly clean is to be healthy.

ENO'S "Fruit Salt" is a delicious health-beverage that tones and sweetens the entire system. For constipation, acid stomach, fatigue and biliousness it is without equal.

But remember, only ENO can give ENO results.

THE DUSTY HIGHWAY

CHAPTER III.—Continued

"But—that's it," she said with sudden courage. "Did you hear what that dear old man said to me to-night? He said: 'Give him plenty of rope to run on.' And you'd be free without me, Nick, on this wonderful trip—a thousand times freer. You've given me the happiest week of my whole life. Only—only I should want you to come back to me again."

Nick looked at her. The moon was as bright that he saw distinctly the sweet curve of her lips, and the dark hair above her brow. Something in her nearness made him curiously inarticulate, and she misconstrued his silence.

"I could go back," she hesitated, "and—when you got tired of roaming (and I suppose even the most confirmed vagabond has such moments), why—I'd be waiting, and—glad to see you."

She could no longer control the tremble in her voice, and the sound awakened Nick from the trance her words had brought upon him.

"So that's your problem?" he said quietly. "Well, my precious little wife, I'm relieved to hear that you'd be glad to see me! For just a moment I wondered if you were weary of your bargain. As for myself, Gay, I don't care for that long rope, it's so long that I can't see you at the other end. I don't want my freedom without you to share it. I know I'm a kid in lots of ways, dear—too much of a kid to know how dearly I loved you, even a week ago. But I know now. That answers your problem, doesn't it?"

He would have kissed her, but she moved from him a space, and said, her voice still trembling: "Oh, Nick! you are always so sure. Are you never afraid of—Life?"

"No," Nick answered. He sat quite still, looking down on the moon-lit shadows in the valley. "No," he repeated. "Perhaps if I were a woman, still, my mother was not afraid. It was she who made me see life as I do. She was a poet, my mother. She didn't often put her poetic fancies into words; but the night she died . . ."

Again Nick seemed lost in thought; but as Gay's hand slipped into his he clasped it hungrily, and said: "I've never told this, Gay, even to Aunt Nettie, who knew all my secrets. My mother called me to her, because . . ."

TWICE BENEFITED BY SAME REMEDY

Recommends Lydia E. Pinkham's Vegetable Compound

Cobourg, Ontario—"Years ago when I had a sick father and a nursing baby to care for, I got all kinds of advice, but I took Lydia E. Pinkham's Vegetable Compound to get strength to do my work. Another time at Change of Life, I had severe head-aches and it did me all the time. I took seven bottles of this Vegetable Compound and felt like a new woman. I recommended it to any woman who is at the age when she needs building up."

—Mrs. F. B. STEWART, R. R. 4, Cobourg, Ontario.

Compound and felt like a new woman. I recommended it to any woman who is at the age when she needs building up."

W. N. 11 1629

desperately to be honest, "no, dear, I'm not afraid. Oh, Nick!" she cried, and faced him, her eyes like stars. "Oh, Nick, life is so wonderful! Just now I'm not afraid of anything!"

CHAPTER IV.

Gay did not know that she touched one of life's mountain-peaks when she spoke those words. Later she was to understand, and look back upon that hour as something precious. For life's big moments do not last. Their beauty perishes like the beauty of a rose, leaving only a fragrance and a memory.

Standing there in the moonlight with Nick's arm about her, Gay felt a sense of security and happiness that, in her ignorance of life, she thought must last forever. Nick loved her; and she was not afraid! Nothing would ever make her afraid again! In four months later, when they stood together on another hillside, fear stared at her—not fear for herself and the big mystery before her, but fear that because of it Nick's coveted freedom was at an end.

It had been a glorious four months. Leaving the "rusty divan" with Mr. Bartlett, they had gone forth on foot, because Gay wouldn't let Nick change his long-land plans.

"That's right," the old man said at parting. "He'll be happy to do just what he set out to do; and there's the railroad to bring you back! I'll either of you get sick or caves in on the job. You got plenty o' money along, Nick? I ain't advisin' you to spend any more'n's necessary; but there's nothin' makes for comfort on a journey like a full pocketbook. If you need more'n you got I'll be glad to supply you till it's convenient to pay back."

"That's mighty kind of you," Nick answered, "but I think I've enough to see us through, thanks to my late uncle's not making the will in which he threatened to disinherit me! Thank you for housing me the flower for us, Mr. Bartlett. We'll call for it sometime during the next two years."

"All right, senny; but don't let that little lady get tickered out. If she does, just ship her back to me and I'll be proud to look after her while you're gallivanting round the world. Good-bye, man! I'd be pleased to have you drop me a card from every port."

"I shan't forget to," Gay promised; then added, as something wistful in his eyes caught at her heart, "Will you kiss me good-bye in place of the father I can't remember?"

"That I will!" he replied heartily. "If you'll guarantee it won't make no hard feelin' betwixt Nick and me! Good-bye, children. Don't forget your Uncle Sam when you're off a-conquerin' the universe."

Nick grinned.

(To Be Continued.)

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Film Record Of Sign Language
The "Pathfinder" says: A permanent film record is to be made of the sign language of the American Indian tribes. Through this language Indians speaking 300 different dialects are able to converse with one another.

Old age is a long shadow lying in the cold evening sun, but it points towards the morning.

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! Harmless as the recipe on the wrapper, mild and bland as it tastes. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is need. In cases of colic, diarrhea or similar disturbance, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

"No," she said, slowly, as if trying

Stop Coughs Easily This Way

Just rub Vicks on throat; also swallow a little every few hours

VICKS
VAPORUB
OVER 12 MILLION JARS USED YEARLY

Says India Will Remain Loyal

Viscount Willingdon Convinced That People Of India As A Whole Will Remain Steadfast

"It is my belief that if we continue the administration of India in a sound and satisfactory way, being sympathetic to her aims but at the same time demanding law and order, the people of India as a whole will remain steadfastly loyal to Great Britain, and we need not worry about the agitators who are trying to stir up trouble." This was the conviction expressed by Viscount Willingdon, Governor-General of India, to the members of the United Services Institute at Halifax, whose guest he was at luncheon.

Viscount Willingdon referred to the limitations placed on him, as a speaker, by his position, and remarked that he had "become almost a genius in speaking on nothing for a quarter of an hour."

His reference to India was made while touching upon the contribution made by the dominions in wartime, and of the present esprit de corps of the land, sea and air forces of Canada. India, too, had made sacrifices during the war, sending a million men to various fronts.

"One of the most important and critical conferences ever held," was his excellency's view of the Imperial conference.

Touching on the general situation in Canada the governor-general said he was perfectly convinced the present depression would soon pass away. "If I know anything of the spirit of the Canadian people I know that this dominion will soon go on with that sound and solid progress that has brought about the great development of this country."

Wartime Memories

British Foreign Office Would Discourage Perpetuation Of Memories

The British Foreign Office, wishing to discourage the perpetuation of memories of wartime antagonisms, has proposed to all European governments that henceforth memorial wreaths should not be laid on cenotaphs or to the unknown soldiers during official visits.

The Labor Government has issued no formal announcement of the step, but it is confirmed by the department officials. The government feels that in formal international intercourse the less emphasis on war the better.

An Oil For All Men—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicine cabinets and be amongst those taken on a journey.

Still Entitled To Pensions

Settlers Abroad May Keep Up Insurance In Britain

The British Ministry of Health has issued a notification, reminding settlers, who have left Great Britain or Northern Ireland, within the last year or two, that under the British Pensions Act, which came into force at the beginning of the year, they may be entitled equally with those, who have recently gone overseas, to revive or keep up their insurance for the purpose of securing pensions and benefits for themselves and their dependents.

If, however, they left the country before January 2, 1930, they must apply to the Ministry of Health, London, England, before the end of this year. The full facts of their case should be set forth in writing in order that the ministry may decide whether the person is eligible for pension or benefits.

Cattle Sales

The Annual Livestock Market and Meat Trade Review published by the Dominion Department of Agriculture, shows that during 1929 a total of 799,435 head of cattle were sold in Canadian stockyards. This is substantially below the figure for any of the preceding five years. The total for calves, 378,860 represents a gain in sales of 17,800 head. Toronto led the cattle trade with a total of 318,021 head, while Montreal West led sales in the calf trade with a total of 138,207.

Use Minard's Liniment For Toothache.

Text Book Controversy

U.S. Text Book Used In Australia Described As Insulting

A United States text book—Hayes and Moon's Modern History—adopted as a standard book in the state of Victoria, Australia, has become the centre of a controversy.

The Australian Natives' Association, a national organization of Australian-born citizens, has protested against the book, describing it as biased, untrue, and insulting. State Minister of Education, Lemmon, is threatened with opposition at the next elections if he does not withdraw the book.

In particular the Australian Natives' Association say the following two statements are falsification of the truth and an insult to Britain and Australian troops:

"The British collected a motley army, composed chiefly of colonial troops, and landed it on the tip of Gallipoli Peninsula, close to the Dardanelles."

"The United States was the only great power that fought in the war without demanding or even desiring territorial gains for herself. She should be credited with a loftiness of purpose and unselfishness that could hardly be matched in all history."

The Japanese Method

Government Makes Law Which May Reduce Grade Crossing Accidents

Japan is having trouble with grade crossings. More accidents are being caused by motorists attempting to beat trains across intersections. The court of that country, however, is determined to aid in reducing grade crossing accidents. In the future the motorist who races trains to crossings will do so at his own risk. His heirs will have no claim on any railway company, public or private. The new ruling recognizes that the country will be benefited more by faster train schedules than by preserving the lives of those who are incautious enough to attempt to beat the locomotive.

Crying Babies Are Sickly Babies

The well child does not cry. He is laughing and happy all the time. Baby's cry of distress is the only means he has of telling the mother or nurse he is ill. Mothers who can keep their little ones well and happy by giving them Baby's Own Tablets—the safe and efficient remedy for all childhood ailments.

Baby's Own Tablets are a mild but thorough laxative. They sweeten the stomach; regulate the bowels and thus banish constipation and indigestion; break up colds and simple fever and allay the irritation accompanying the cutting of teeth. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

British Empire Trade Building

In connection with the proposed chain of British Empire trade buildings designed to promote trade between the different parts of the Empire, tentative plans have been presented for the Winnipeg building, which will cost between \$1,500,000 and \$2,000,000.

Little Helps For This Week

"Be ready to every good work."—Titus III. 1.

Into thy charge hath He not given space
All of thine own to make look green and sweet;
To be a haven unto troubled souls,
To be a resting-place for weary feet?

Doth He require at thy hands aught
To let this garden about itself so fair,
That others seeing it shall straight-
way go?

And till the portions given to their care?

And what is work? Is it only some task of hand or brain? Is it only accomplished when we see tangible evidences of our toil? Or is it, too, the checking of a petulant or thoughtless desire, the subduing of an unworthy temptation that woe us to spiritual indolence, the striving to keep fresh and blooming the garden-plot God has given us all for our own, and where only by heart-work the fair flowers of "Love," "Joy," and "Peace," can be brought to bloom?

Minard's Liniment refreshes the scalp.

Pacific Coast Salmon

Pacific Coast salmon constitute one of the most valuable of Canada's natural resources. In 1928, British Columbia's catch was more than \$17,300,000 in value.

FREQUENT PAINS?

NEVER let a throbbing head interrupt your shopping! Or other pain that Aspirin ends so quickly. These harmless tablets are an antidote for the most acute pain. Relief is almost instantaneous. Taken in time, they will break up a cold and head off discomfort. They'll relieve your suffering from neuralgia, neuritis, or the like, at any time. Thousands of

women depend upon Aspirin tablets every month. Ask them from those pains peculiar to women. These tablets do not depress the heart; they may be used as frequently as there is need of their quick comfort. So, it's folly to endure any pain that Aspirin tablets could relieve so promptly. Get the genuine, which is always to be had at any drugstore.

Main Street

Mr. Andrew Smart and his mother expect to leave Friday to visit friends in Calgary.

Mr. W. Anderson, of the Jamieson Construction Co. of Edmonton was in Irma Wednesday.

Mr. and Mrs. Reeds are attending the High School teachers convention at Edmonton this week.

Mr. Gordon and George McBane, of Detroit, Michigan, are visiting their mother, Mrs. Mary McBane at Irma. Alfred Walker and C. Cummings have dissolved partnership on the L. Reber farm north east of Irma.

The next meeting of the Ladies Aid will be at Mrs. Locke's Thursday November 13th. Everyone welcome.

The members and officers of the Ladies Aid wish to thank all those who helped to make the Bazaar a success.

We have a number of articles left over and these may be seen and will be on sale at Mrs. Tripp's home until Christmas.

Next Monday, November 10th, is Thanksgiving Day, and is a national holiday. All stores and business places will be closed all day.

Willie McBane, formerly of the Albert district but now living at Millet is helping with the threshing north of Irma.

Miss Mary Elliott returned last Friday night after spending a couple of months visiting relatives in Ontario and Michigan.

Mr. and Mrs. J. C. McLean left for Edmonton Saturday to attend the funeral of the late William F. McCaully, brother of Mrs. McLean who passed away in Edmonton Friday night. The funeral was held Monday morning at Andrews Brothers' parlors. Rev. Mr. Tait of First Presbyterian church officiating.

What might have been a serious accident happened about four miles east of Irma last Friday afternoon when a large truck loaded with oats was turned over on account of the rutty condition of the road. The driver who was severely stunned escaped by crawling through one of the doors in which the glass had been broken. The spot where the accident happened is a short distance east of Sunny Brae School where the road in this section is very sticky during wet weather. The recent snow fall and frost had made it very dangerous to drive over. A little gravel spread over the worst spots would help considerably until it is possible to have the whole highway gravelled.

The weather has been ideal for threshing and finishing fall work, about 60 to 70 per cent of the grain is threshed and another ten days will see most of the stocks out of the way for another year. This is about all that can be said for most of the crop as in many cases the price realized at the elevators will not cover the cost of threshing and harvesting. One case is reported south of town where the farmer paid 11 cents per bushel for getting his rye threshed and when he delivered a load at the elevator he could only get 10 cents per bushel for it. To date 175 cars of wheat have been shipped this year, most of the wheat grading 2, but even at that the prospects for making a profit from grain growing are not very promising. Sixteen car loads of live stock were shipped from Irma last month. A lot of this was stock that should have been kept on the farm for another year.

Why His Father Didn't Like It.

During the absence of a minister, a load of hay upset in front of his house. When he returned, the boy, who was a Scandinavian, was working as hard as he could to get the load back on the wagon. It being dinner time, the minister invited him to dinner, at which the boy replied: "Ay no tank me fater like it."

"Oh, he won't care," said the minister.

The boy consented to come in, but every little while he would exclaim: "Ay no tank me fater like it."

At last in impatience the minister said: "Why in the world will your father care if you stop here and eat dinner?" At which the boy replied: "Me fater, he bane under dot load of hay."

YOUR PRINTING NEEDS

The News printing-office is now in a better position than ever to attend to your printing requirements. A good quality of stock used on all jobs, and the printing is as good as you can get anywhere. We meet city prices, and in many cases are considerably lower, stock and workmanship, considered. May we fill your next order?

NEWS AND VIEWS KINSELLA DISTRICT

News and Views of Kinsella and District as Seen by Our Special Correspondent, J.J. Overbo.

Mr. Rupert Martin, a highly respected resident of the Lougheed and Kinsella districts passed away in the Hardisty hospital on Sunday morning after a prolonged illness and much suffering. He was 80 years of age. The body was laid to rest in the Lougheed cemetery on Tuesday afternoon, after a service in All Saints Anglican Church. The Rev. Gower, rector, officiating, and appropriate hymns being sung. The pallbearers were three sons with Messrs. T. Cunningham, W. Albrecht and M. Larsson.

The late Mr. Martin was born in Bury, Ontario. At the age of 16 he took part in the Fenian Raids, and later served ten years in the U. S. Navy, and also ten years as engineer on the C. P. Railway. He farmed for some years in the Bellshill district after which he settled about ten miles south of Kinsella.

He leaves to mourn his loss, his widow and four sons, Geoffrey of Killam, Gerald and Hugh at home, and Claude of New York.

Frank Simmons' and Elmer Eis were summoned by J. C. Cottrell, A. P.P. of Hardisty on Monday, and appeared before Magistrate A. I. Miller of Sedgewick on a charge unlawfully killing deer out of season. The penalty exacted was \$25.00 each and the costs of the court.

Excitement ran high in the Jarro and Kinsella district when word was received that R. T. Meakins had drawn a horse that was to run in the Army and Navy Sweepstakes and that his chances of winning several thousand dollars was very hopeful. Later reports stated that he had drawn a starter which we understand netted him around \$1500.00.

The Ladies Aid will hold a Bazaar and Tea in the basement of the United Church on Saturday afternoon November 22nd.

For the past few days the weather has been wonderfully nice and threshing is being proceeded with at the fastest possible speed. No time is being lost and in a very few days a large portion of the grain will be threshed.

One day recently Miss Gina Skori while riding horseback to school had the misfortune to have her horse stumble and fall on her ankle. She was taken to the Municipal hospital at Viking and an X-Ray picture revealed a broken bone in her foot.

Mrs. J. Allen and daughter returned home on Saturday from Edmonton where they had been for the past ten days.

Mr. Fred Waltz received word on Friday that his brother at Bassano, Alta., was dead. He left on the evening train to attend the funeral.

Miss Evelyn Corbett returned home on Thursday last from Edmonton where she had been for a few days.

Mr. and Mrs. P. J. Wangness and daughter spent a few days the past week with his brother at Cole Lake.

The Ladies Aid will meet at the home of Mrs. Jack Neale on Thursday afternoon, November 13th at 3 p.m.

The pupils and their teacher of the High School held a Halloween party in the school on Friday evening.

Mr. and Mrs. W. L. Ferries spent Sunday afternoon with Rev. and Mrs. Geeson at Irma and attended service there in the evening.

Mr. and Mrs. Jack Allen, daughter and niece, Miss Gladys Eckert spent Sunday at Killam with Mrs. Allen's parents, Mr. and Mrs. Smith.

Miss Mariam Watson who is teaching near Minburn spent the week end with her parents Mr. and Mrs. O. Watson.

Miss Ella Cormack spent the week end with Miss Dorothy Williams.

Mr. Jack Elliott of Edmonton spent Monday and Tuesday at his farm northeast of town.

Mr. Markell shipped a carload of stock from here on Monday.

Mr. P. Larson shipped a goat to Mr. George Smith of Wainwright on Monday.

Mrs. Chas Turnbull from the north, spent the week end with Mrs. B. Wachter.

A scientist claims that paper is great to keep one warm. That's nothing new. Many a person has been in a sweat over a thirty day note.

Gay Life in Daysland.

The editor passed the time of day with a man in business in Daysland the other morning and didn't even get a grunt in reply—that is, not until we remarked that we didn't give a d—whether he spoke to us or not.—Daysland Commercial.
